Request that for reasons given to move Govt to allow the Sanitary Commissioner's office establishment to continue as distinct from that of the Senior Surgeon & to accord sanction to the proposal already ruled by him to carry out the only possible retrenchments in his office.

3/1 Subd. The reasons urged by the Sanitary Commissioner to continue his office establishment as distinct from that of the Senior Surgeon are as follows:

1. The combination of the offices of the Senior Surgeon & the Sanitary Commissioner is only owing to the present financial stress & hence the two establishments must be kept separate, so that, they and is only temporary

may be no difficulty when a separate officer should be posted in future.

2. The scope of work of an Sanitary & Public Health Dept has steadily widened, the distinctive field of preventive medicine coming to be recognised more & more. The work is quite distinct from that of the Civil Surgeon & does not admit of any amalgamation

3. Combination of functions in one officer may not admit of combination of establishments. He quotes the analogy of the Registration, Excise & Income tax depts, which have separate establishments though under the same head.

4. No reduction in The duties & responsibilities of the Sanitary Commissioner of his establishment was contemplated in the retrenchment order.

5. The present establishment of the ~~establish~~ Sanitary Commr consists of hands who possess little of general education with the single exception of the manager. The manager of the office was appointed at a time when

When there was a full time Sanitary Commissioner. The abolition of his post would deprive him ~~office~~ of the only efficient hand therein & renders it impossible to do justice to his new charge as Sanitary Commissioner.

6. The Sanitary Commissioner states that when the question of the confirmation of charges was raised by the Special Finance Committee, he gave them to understand that he had no objection to undertake the additional duties, ~~of~~ provided he was given the help of the present staff. 38) In these circumstances he requests sanction to his retrenchment proposals already sent vide his Letter 19th August & 10th October 1920.

39) With respect to point no 1 raised by the Sanitary Commissioner; it is noted that Govt stated in their order no 25243-63/San 106-20-1 & 30.6.1921 that "it is neither desirable nor practicable to combine the office of the Senior Surgeon ~~who had also~~ and Sanitary Commissioner" as the need for a technical adviser in matters of Public Health is recognized by every administra

and that the combination of the two offices would be a retrograde step. The recent order of 26.6.22 for retrenchment are stated to be ordered in view of restricted grants proposed by the finance dept. for Sanitary work.

2) Point no 2 has been answered in para 1 of Govt. letter of 30.6.21.

3) With regard to points 5 & 6. it is submitted that Dr. Mythrapanam, who is questioned by the Special Finance Committee, spoke against the combination of the two offices and the abolition of the Manager of the Sanitary Commissioner's office.

4) The revision of the Sanitary Commissioner's office was sanctioned in Govt. orders no 2006-757/San 7-15-3 of 8-9-1915 and no 5876-7/San 99-17-2 of 17.4.18 The pay of the manager was fixed at Rs 600-10-650 in P. no 5113-63/San 86-7-3 of 8.2.1917 and no. 1st incumbent was confirmed as the manager of the Sanitary Commissioner's office in P. no 4. 6767-8 San 99-17-5 of 31.5.1918 in view of his good work.

From Dr. H.B. Mylvaganam, F.R.C.S.(Engd.), etc.,
Offg. Sanitary Commissioner with the Government of H. H. the Maharaja of Mysore, BANGALORE.

To
T. E. Jeyaram Iyer, Esq., B.A.,B...,
Secretary to the Government of Mysore,
Revenue Department, B A N G A L O R E.

Sir

With further reference to the question of retrenchments in the Sanitary Department, I have the honor to state that consequent on the decentralisation of powers and work in connection with epidemics, the Vaccination Department &c., the work in the Sanitary Commissioner's Office has materially diminished, so that it is now possible to effect retrenchments in the Office also. The Staff at present stands as follows:-

Manager.	100-10-150.
Deputy Clerk.	55/-
2nd Clerk.	45/-
Record Keeper.	35/-
Statistical Clerk	35/-
Typist.	25/-
Registering Clerk	25/-
Despatcher.	20/-
Draftsman.	35/-
Attender.	13/-

2. After a careful examination of the nature and volume of work in the Office, I am satisfied that I can, by a judicious redistribution and combination of duties, do without the Deputy Clerk, the Record Keeper and the Despatcher. The work of the Deputy Clerk can conveniently be combined with that of the 2nd Clerk. A combination ~~the appointment~~ of the work of the registering Clerk and the Despatcher can similarly be effected while the Statistical Clerk can also be the Record Keeper. There is no

Submitting proposals for retrenchments in the Sanitary Commissioner's Office.

work that I know of for which a separate draftsman is required for the Office. The appointment has been in existence ever since November 1907, but the present incumbent who was entertained in the same year, was attached to this office for seven years, then transferred in 1914 to the Railway Department with a lien on this appointment and has been reverted to this Department on account of retrenchment about 3 months ago. A substitute was appointed in his place during his employment in the Railway. During the 14 years of the establishment of this post, there have been very few occasions to require the services of a draftsman and why he has been allowed to exist all these years by my predecessors is not clear. His further retention in this office is unnecessary and he may be transferred to the Public Works Department in view of the long service he has put in. Otherwise it would be a great hardship to him to find a living.

3. At the same time, the pay of the other Clerks is much too inadequate. It ought at least to represent the present living wage for the particular class of appointment I therefore propose small additions to the existing pay as follows:-

2nd Clerk.	₨ 50/-
Statistical Clerk.	40/-
Typist.	35/-
Attender (who will also be Mutchie).	15/-

4. The above proposals will result in a net saving of ₨ 123/- per mensem of ₨ 1,476/- per annum. Inclusive of the retrenchments in the Menial Staff, proposed in my letter No. C. 936-3 dated the 19th August 1922 the saving will be ₨ 1,968/- or nearly ₨ 2,000/- per annum.

5. The present Deputy Clerk is over 52 years of age and has rendered a service of 27 years. He may be retired and given full pension as a special case. The Record Keeper who is 54½ years of age and has put in a service of 32 years may similarly be retired on full pension. The

The despatcher, who has put in about two years of temp rary service, will be dispensed with.

6. I request very early sanction of Government to the above proposals.

I have the honor to be,

Sir,

Your most obedient servant.

To The Secretary to the Government of Mysore, Camp Mysore. Bangalore

T. E. Jeyaram Iyer, Esq., B.A.,B.L.,
Secretary to the Government of Mysore,
Revenue Department, Camp Mysore

Sir

With reference to your letter No. L. 2247/San. 19-22-3 dated the 3rd Ultimo, I have the honor to forward herewith in duplicate, a proposition statement of the Revision of the Clerical and Menial Establishments of this office. The grounds for the revision are explained in the statement. It will be seen that the proposals result in a saving of ₹149/- per mensem or ₹1.788/- per annum.

2. In regard to the present incumbents of the appointments that are to be abolished, I propose as follows:-

i. Mr. A. Ekambara Mudaliar, Deputy Clerk who is 52 years and 3 months of age and who has a service of 27½ years may be granted combined leave for 2 years and retired on full pension. The grant of combined leave is recommended to enable him to earn his full pension calculated on his present pay which was raised by ₹5/- from 1st July 1921 in consequence of the consolidation of the high price allowance into pensionable pay.

ii. P. Narasimhaiya, Record Keeper who was a service of over 32 years completes his 55 year on 6th January 1923. He has, in view of his fitness for further service, been granted one years extension after that

that date by my predecessor in Office. As in the preceding case, he has been drawing an increase of pay of ₹5/- from the 1st July 1921. He is physically fit and, but for the retrenchment, would have been given further extensions. Under the circumstances, I would recommend that, as a special case, his average emoluments for purposes of pension may be authorised to be calculated as if he had completed full three years service on that pay.

3. The appointment of draftsman has been in existence ever since 1907 but the present incumbent, M. R. Gundu Rao who was entertained in the same year was attached to this office for seven years, than transferred in 1914 to the Railway Department with a lien on his permanent appointment and has been reverted to this Department on account of retrenchment in the Railway Department about 4 months ago. A substitute was appointed in his place during his employment in the Railway. In view of the long service of nearly 15 years he has put in, he may kindly be transferred to the Public Works Department. He is qualified for service in that Department.

I request early sanction to the above proposals.

I have the honor to be,

Sir,

Your most obedient servant.

To

Sir,

With reference to your letter No. L.5027/San. 19-22-6 dated the 11th January 1923, regarding the amalgamation of the establishments of the Offices of the Senior Surgeon and the Sanitary Commissioner, I have the honor to submit as follows:-

Even as regards the combination of the functions of the Senior Surgeon and the Sanitary Commissioner in one Officer, the Government were clearly of the opinion that such a step was undesirable and that the study of sanitary problems and the development of sanitary administration was of sufficient importance to justify the retention of a separate special officer as adviser to Government in matters pertaining to Public Health and Sanitation. (Vide Government Order No. G.2524[illegible]-33/San. 106-20-1 dated the 30th June 1921.) This combination was ordered by Government in their No. L.7567-82/San. 55-21-1 dated the 30th June 1922, solely "in view of the restricted grants proposed to be given to sanitary works". It cannot, I take it, be the intention of Government to continue what they were themselves pleased to recognise as a "retrograde step" beyond the period for which the present financial stress is expected to last. It is therefore desirable to preserve the distinctiveness of the Sanitary Commissioners Office untouched so that a retransfer of the charge thereof to a separate Officer at some future date could be effected without any difficulty.

2. The fact that the Senior Surgeon and the Sanitary Commissioner

had only one establishment more than fifteen years ago cannot justify a belief that such a combination of offices is possible at present. Since 1904, the scope of work in Department of Sanitation and Public Health is being steadily widened. A separate cadre of Sanitary Inspectors has been created. The Municipal Regulation has been introduced and rules under the Village Sanitation and the Compulsory Vaccination Regulations have been brought into force. The distinctive field of Preventive Medicine is thus coming to be more and more recognised in a practical way. To any one who is familar with Sanitary Administration, it will be patent that all this tends to more and more specialise the work of the Sanitary Commissioner in connection with systematic annual inspections, the regulation of vaccination work, the systematisation of the registration and compilation of vital statistics, the unification and co-ordination of procedure for successfully combating epidemics &c. The sphere of work of each of the two Officers has thus become quite distinct and does not admit of any amalgamation. The Registration, Excise and Income-Tax Departments are under the same administrative head. Yet the work of each Department is conducted by a separate office, each of which has its own ministerial head conversant with its technicalities and special lines of work. Other instances may not be wanting where, although the administrative head may be the same, yet the office establishments are separate and unconnected with each other.

3 The Government Order of 26th June 1922 does not contemplate any reduction in the duties and responsibilities of the head office or in its establishment. The reduction of office expenditure suggested in my letter No. C.936-4 dated the 23rd August 1922, represents the maximum savings which my own eagerness to co-operate with Government in their attempts towards economy prompted me to try to effect without undue sacrifice of efficiency. Unlike the offices of the administrative heads of other departments, the staff of the Sanitary Commissioner's Office consists of hands who possess little of general education. The present Manager is the only hand who is a graduate and, having the experience of about 20 years in the working of the Department, can be relied upon to turn out efficient work and intelligently follow my directions. I beg to submit that if there was need for an [illegible]

organised office with a Manager at a time when there was a full-time Sanitary Commissioner, such a need is only more pronounced now that an Officer already burdened with the administration of two departments (Medical and Prisons) is called upon to take up the control of a third one. In this connection I may be allowed to submit that when this very question was raised by the Special Finance Committee, I clearly gave them to understand that I had no objection to undertake the additional duties of Sanitary Commissioner provided I was given the help of the present office. If I am to be deprived of the office or of the only efficient hand therein, Viz., the Manager, it will be absolutely impossible for me to do justice to the charge of ex-officio Sanitary Commissioner.

Under these circumstances, I earnestly request that you will be so good as to move the Government to be pleased to allow the Sanitary Commissioner's Office Establishment to continue as distinct from that of the Senior Surgeon and to accord sanction to the proposals already submitted by me to carry out the only possible retrenchments in the office.

I have the honor to be,

Sir,

Your most obedient servant
